Product Owner: **Hamna Aijaz**

UI/UX Designer: **Sadia Yakoob**

Developer: **Aleena Rehman**

Product:

Online Attendance Management System

Customers:

Team Sprinters

Vision:

- Make Pakistan equals to other countries in technologies.
- Transform the way our customers mark attendance.

Initially we are going to launch our product for the Department of computer Science by taking their Data on our system and facilitate them with online attendance marking scheme which benefits teacher to calculate and mark students' attendance and eligibility of the students to appear in the exam. , but later on the project can be modified to operate it throughout the university. Our vision is to create a convenient way of attendance for the entire university. Monitoring attendance remains the fundamental and vital part of any educational institution.

Stake Holders:
